JOHN Y. HOY IS READY TO AVENGE DEATH OF MOTHER

WASHINGTON, Feb. 28.—Austin Hoy, whose mother and sister were slain on the Laconia, cabled President Wilson, calling upon the government to avenge similar outrages. He said: "I am able to fight. If my country can avenge these brutal assassinations, I await its call. If it stultifies itself and my nation remains under this outrage, I shall not have a man's chance under another such situation."

PROHIBITION BANNER TO SPEAK IN DAYTONA NEXT MON.

Governor J. Frank Hanly, of Indiana, will speak in the interest of national prohibition next Monday evening at Casino Burgoyne at 7:00 o'clock. Many Daytona people will be pleased to hear Governor Hanly, who spoke last year as a member of the Flying Squadron foundation and who was here again with the same organization to finish the work started the first campaign. This Flying Squadron foundation has headquarters in Indianapolis and has been organized under the laws of Indiana. Its purpose is to secure prohibition for the entire country and its spokesman and worker is Governor J. Frank Hanly, formerly governor of Indiana. Born in a log cabin in Champaign county, Illinois, not many miles from the old home of Abraham Lincoln, he received most of his early education at his mother's knee, attending school a few weeks per year for several years, and then, at the age of thirteen, started out to find his way in the world which led to the governorship of Indiana, at the age of forty-one, together with other high honors. Upon all of these he turned his back when the plan to aid mankind in the fight for the suppression of the liquor traffic presented itself to his mind. Governor Hanly is conceded to be the peer of temperance orators in the country. He is eloquent, forceful, convincing and one of the most able speakers on the Chautauqua platform today. His lecture in Daytona will be free of charge and the public is cordially invited to hear him.

Burns Detectives On the Job To Investigate Bank Robbery

No new developments have happened today in regard to the First National bank burglary. Representatives of the Burns' Detective agency are here in the interests of the American Bankers' Protective association, to make a probe of the burglary. This morning the bank opened with a display of currency of more than \$100,000.00 at the teller's window, but it apparently was unnecessary to display this immense amount of wealth, as nothing unusual occurred. The officials of the bank are to be congratulated in giving such information to the news as would reliably inform the general public of their actions, and the raising of \$50,000 last night by assessment on the bank's stock solidified the public in the confidence they have had in the First National bank. Officials of the First National bank held a directors meeting last night at which time it was decided to make an assessment against the stockholders for an amount equal to more than double the amount lost in the burglary which took place yesterday morning. This sum, aggregating the vast amount of \$50,000, was, according to Cashier Sullivan, deposited in the vaults of the First National bank before the opening hour today. The directors came to the conclusion to make the assessment to fully protect the depositors from any loss which the bank may sustain by reason of the burglary.

CONGRESS BALKS AT GIVING WILSON UNLIMITED POWER

WASHINGTON, Feb. 28.—The situation in Congress has fallen into a tangle and indications are that there will be an extra session.

The House Foreign Affairs committee reported the Flood bill designed to give the president power to protect American ships, after striking out the words "other instrumentalities" and amending the measure to prohibit the government issuing war insurance for ships carrying munitions. The changes are unwelcome to the administration.

The bill reported yesterday by the Senate Foreign Relations committee is practically agreeable to the president. The two measures may be reconciled, however, although the president has given notice that he expects no material changes in his plans.

Prospects for a Republican filibuster loomed large. Senators openly assert that the reason for their course is to force an extra session.

Find Strength in Nature.
When I would recreate myself I seek the darkest wood, the thickest and most interminable and, to the citizen, most dismal swamp. I enter a swamp as a sacred place. THE JOHNNY JONES SHOWS IN FULL SWING LAST NIGHT

With all the old fashioned din and hubbub, the shouts of the peanut vender, the ballyho barker, the hot dog man the noisy bands, the callope and orchestrons and all the other features which make America worship at the shrine of the circus, Johnny J. Jones' "Twenty Ring Show" was in full swing last night on City Island. The late arrival of the show train had permitted only the opening of a few of the attractions Monday, but Tuesday evening the entire midway was ago and an immense crowd thronged the vast pleasure field from early to late.

A comprehensive review of all that Johnny Jones dishes up from his elaborate amusement menu is impossible in one issue of an ordinary daily. A special edition would be required to print the story.

But there is the "Witching Waves," which deserves special mention because it is so very unique and no one ever dreamed that such an elaborate construction could ever be built portable. There is some sensation connected with a ride over the Witching Waves. Its screamingly funny and ridiculously thrilling. Those who tried it last night, went twice, for it possesses a peculiar fascination which makes one a firm "Waves Fan" once the initiatory process has been completed. Just like a bad cold, it grows on you and its impossible to resist the temptation to repeat.

Probably Sang It From His Heart.

A corpulent tenor was about to go on in the oratorio of "Elijah," when his trousers gave way at the seams. Numerous pins were brought into service, and finally, well trussed up, he went upon the stage and sang, "Ye people, rend your hearts, rend your hearts, and not your garments."

It's the Life.

Another mystery that will probably remain unsolved until the end of time is why a new policeman who is as slim as a jackknife when he first puts his uniform on soon acquires a paunch that gives him the appearance of a dirigible balloon. — New Orleans States.

Glass Making an Old Art.

Among the Romans the art of glass making does not date earlier than the beginning of the empire, but as far back as 58 B. C. the theaters had been decorated with mirrors and glass plates.

Extraordinary Indeed.

Arthur had been asked to write a description of a battle for his school work. Among other things was this amazing declaration: "From all sides came half-eating yells."

Nothing Much to Celebrate.

An Ohio poet celebrated his ten thousandth parody on "Mary Had a Little Lamb" the other day without being able to think of anything else. — St. Louis Post-Dispatch.

"THE PEARL OF PARADISE"

As Yulita, the beautiful South Sea Island girl in the fascinating drama "The Pearl of Paradise," Margarita Fischer adds another notable success to the long list of stage and screen productions in which she has starred since her remarkable stage triumph at the age of twelve, when she was first featured in her own company. Yulita is raised as a native of the Islands, although she is the daughter of a Spaniard fugitive from justice and a beautiful American woman who died when Yulita was a baby. The advent of a stranger into her life changes the picturesque girl from a child to a woman, and she suddenly becomes the central figure of a gripping story of love and adventure in which the life of the man who has awakened her love is linked to her own in an intensely interesting series of exciting scenes, leading up to a powerful climax, reached during the spectacular burning of the building in which her father and her sweetheart are held captives by the natives, while she is escaping from the schooner where she has been carried by a desperate victim of her charms.

Margarita Fischer's splendid talents and rare beauty are seen to excellent advantage in this magnificently mounted production at the Arcade theatre Thursday, matinee and night.

"THE BLACK WOLF."

Lou Tellegen, the distinguished romantic actor who recently created such a success in the Jesse L. Lasky productions, "The Victory of Conscience," and "The Victoria Cross" will be seen at the Crystal theatre on Friday in the Lasky-Paramount picture "The Black Wolf." Mr. Tellegen established himself as the foremost romantic actor of the stage when he appeared in this country with Sarah Bernhardt. Within the past year he has made himself one of the most popular photodramatic stars by his splendid personality and his artistic and sincere performances.

In "The Black Wolf," Mr. Tellegen is seen in a character entirely different from anything in which he has heretofore appeared, and in a role to which he is exactly suited. The Black Wolf is a bandit with his hiding place in the Spanish mountains. He is a friend and benefactor to the poor but has a price placed on his head by the duke of a particular district in which he operates. The duke tries to win the hand of his chancellor's daughter, but she, chancing to meet the Black Wolf, falls in love with him.

One night the Black Wolf is captured in her garden and sentenced to be executed. By her promise to marry him, the daughter of the chancellor secures the duke's consent to pardon the Black Wolf, unconscious of the fact, that if pardon is granted he must become a slave to the duke.

How the Black Wolf turns the tables, deposes the duke, and is himself hailed in his place, is nearly assassinated, but is finally able to marry the girl he loves, is depicted in a most unprecedented manner.

For his leading woman in this photodrama, Mr. Tellegen has Nell Shipman, the clever photodramatic star who is well known to lovers of the photoplay. Others in the cast are James Neill, Paul Weigel and H. J. Herbert. The production was made for the Lasky company under the direction of Frank Reicher and abounds in lavish settings, beautiful exteriors and splendid photography.

Dessert Spoon's Lament.

"I think it's real mean!" sobbed the Dessert Spoon. "Here they're going to have rice pudding for dinner to-night, and I've got to go upstairs to give Jack his cod-liver oil. Ugh!"

Or Destructive.

About all that experience teaches is to repair, and that's not constructive. — St. Louis Globe-Democrat.

GRAND MATRON O. E. S. VISITS LOCAL CHAPTER

The meeting of Live Oak Chapter No. 1, Order of the Eastern Star, held last night in Masonic hall on Orange avenue was largely attended, between 90 and 100 members and visitors being present. The chapter enjoyed an official visit from the grand matron of the O. E. S. of Florida, Mrs. Alice H. Haskell, of Palatka, who was accompanied by her husband, Judge E. E. Haskell, a past grand patron of the order. Other prominent visitors were Silas B. Wright, of DeLand, grand patron of the O. E. S. of Florida, who was accompanied by Mrs. Wright and Mrs. Anna E. Briggs, past grand matron of California.

Following explanation of work and addresses by several of the visitors in attendance, the chapter was closed and all repaired to the banquet hall where refreshments and a pleasant social time were enjoyed.

A pleasant feature of the evening was the presentation to Mrs. Haskell of a beautiful bon-bon dish from Live Oak chapter as a souvenir of her visit.

Life's Never-Ending Vortex.
Life is a ceaseless vortex, a perpetual whirlpool, from the beginning to the ending, and from the ending to the beginning. Every death is a new birth, every grave a cradle.—Macmillan.

Left-Handed Compliment.
George was always trying to say something to please his teacher. The teacher played the clarinet in a little orchestra in the village and George heard the orchestra play. The next morning at school he came smiling up to the teacher with a compliment on his playing. "I thought you made the most noise."

One of the big factors in the wheat situation is the report that the British government is trying to charter all the neutral tonnage available at about three times the going rates and will guarantee owners against all war risks. The tonnage is to be used to carry grain.

Wheat action is gratifying to the bulls. The way it snaps back from its little reactions reaching up into new highs, gives appearance of a real bull market.

Liverpool due two to 19 points higher. Opened firm at 7 to 15 points advance. At midday the market was quiet at a net advance of 5 to 11 points. Spot cotton in moderate request at 17 advance; middling 11.60; sales 7,000; American 6,000.

Rain fell yesterday in Tennessee; elsewhere the weather was generally fair; temperatures were lower in the north portion of the west Gulf states. Unsettled weather is indicated for eastern half of the country today and Thursday with probable rains in Southern states.

Liverpool cables indicates reactionary tendency. Short interest having been forced to cover, we may experience a fair reaction here. It will continue to be a buy on the breaks.

Absence of pressure on wheat good commission demand for wheat.

H. W. & Co.: "It's any one's guess this morning as to immediate course of prices. Some good buying took place and also small selling by common houses. There are some bargains floating around for those who can purchase them outright, especially the cheaper rails and Coppers."

The hedging load of wheat is thought to be carried by cash handlers, millers and foreign interests. The same market situation is said to prevail across the border. There were numerous inquiries for the cash article but nothing reported as closed.

It is not likely that any material decline will occur in corn. Open interest is small.

Kennecott Copper corporation has now on hand cash, copper and securities amounting to more than \$25,000,000. After payment of dividend just declared the company will have a balance of approximately \$21,000,000. Copper on hand heretofore referred to has been sold.

PLEASANT ENTERTAINMENT AT THE NEW GABLES HOTEL

The guests of the New Gables hotel enjoyed a delightful time at cards Tuesday evening, both bridge and 500 being employed.

The successful players at bridge were Mr. and Mrs. William Patterson, of Philadelphia, Pa.; Mrs. J. W. Godwin, of Seattle, Wash., and Mrs. John Price, of Benton Harbor, Mich. At 500 the winners were Mrs. E. C. Post, of Scranton, Pa.; Mrs. Geo. W. Rhodes, of Columbus, Ohio; E. P. Keigher, of Chicago, Ill., and E. D. Johnson, of Atkinson, Kansas.

At the conclusion of the cards refreshments were served and after their enjoyment, Dr. Charles Frederick Goss, of Cincinnati, Ohio, a guest of the hotel, on behalf of the guests of the Gables, presented Mrs. S. H. Moseley with a beautiful Spanish lace mantilla and Miss Moseley with a handsome hammered silver coin purse, this pleasant feature adding to the other enjoyments of the evening.

Of Little Use on the Earth.

There are two kinds of men who never change their opinions—fools and dead ones. The man who will not learn from another is a stiff-necked old mule-back sitting on the tail of progress.

The Extra Block.

Mary, aged five, had built a bed with her blocks, but had one block left. She knew she must use this block too, for her teacher had said to use all the blocks. She studied a while, then exclaimed: "Oh, that will be the bed-bug!"

Pretty Safe Bet.

Little Willie, stretched flat on his stomach, was watching the budget as it was lowered into an open well at the end of a long rope. Impressed by the great depth, he was hardly able to contain himself no longer. "I'll bet that rope is more than half an inch long," he asserted with conviction.

If the World Were Perfect.

If all the world were perfect, an intolerable business would be stamped upon humanity from one end of the earth to the other. "For the love of God," someone has exclaimed, "let me retain my defects. That is the only thing I really have." Moreover, there are some really quite captivating human defects. But it is important to control them so that they may never become obnoxious.—Anatole Le Bras, in the Outlook.

C. H. Foy, of Cedar Rapids, Iowa, has been greeting friends in this city for the past week, having returned to Daytona last week, accompanied by Mrs. Foy, from a several weeks sojourn at Palm Beach and Melbourne. Mr. Foy purchased some property at the latter place a few years ago and recently sold it at a very handsome advance in price. Mr. Foy will shortly return to Cedar Rapids, where business demands his attention, but Mrs. Foy will remain until about the first of April with her mother and sister, Mrs. Catherine and Mrs. Emma Beebe, at their home on South Ridgewood avenue.

Mrs. Frank B. Wright left Tuesday afternoon for Evanston, Ill., where she was called by the illness of her sister, Mrs. Walter M. Stewart. Mrs. Wright had been with Mr. and Mrs. S. B. Wright at DeLand for about 10 days and accompanied them to Daytona Monday for the purpose of visiting her father, Col. C. M. Bingham, and other members of the family at their home on Cedar street. Her recall to Chicago is a great disappointment to relatives and friends here who will, however, hope that Mrs. Stewart's illness is not serious.

COUNCIL SETTLES QUESTION OF BOND

DAYTONA BEACH BODY AGREES
TO TAKE CASH SUM RATHER
THAN CARRY \$5,000 BOND ISSUE
INTO EXPENSIVE LITIGATION.

At a special meeting of the Daytona Beach council, Tuesday afternoon at the town hall on Harvey street, the council accepted the proposition of Michael Sholtz to cancel the bond of \$5,000, which the town holds against the former Daytona Electric Light & Power company, on account of its failure to live up to the terms of its franchise from Daytona Beach, for the sum of \$1,000 cash and attorney's fees not to exceed \$250.

The council at a recent meeting gave Town Clerk Harry A. Horn instructions to take what steps he could to collect the \$5,000 bond which was declared forfeited by the body. In consequence of the attorney's action, Mr. Sholtz, acting as principal of the former company, made the proposition to square accounts with the town by the payment of the cash sum in order to avoid a long and expensive litigation, such as would probably take place if the case were taken to the courts. On the other hand the council accepted the proposition of Mr. Sholtz for like reasons.

Members of the council before accepting this proposal discussed the question at length. They decided that by going out of business the Daytona Electric & Power company had not done any actual injury to the town, while it had benefited the town during the time it was in operation.

The council also considered the request of the Volusia County Bridge company, and the Central of Florida Railway company, to decrease their taxes in Daytona Beach. The railway is assessed at \$3,000 on a 25 per cent basis, while its cost is only \$5,500 a mile or about \$4,500 for the track in Daytona Beach, which would set the 25 per cent assessment at about \$1,200. The assessment on the bridge is based on \$10,000. This matter was laid over until the next meeting so that the clerk may obtain necessary data in the meanwhile.

It isn't the biggest advertisement that gets the most business, but it is the advertisement that says something worth knowing about goods that are worth buying.

Trust the Cabmen.
I trust a cabinet minister exactly as I trust a cabman. He is a man; and there is no reason to suppose he is mad. He is not generally so entertaining as a cabman; but it happens to be his business at the moment to drive the political cab, and he will not get us through the block any better because I am continually snatching at the reins.—Chesterton.

Voice in the Wilderness.
A minister tells his people that if instead of spending all of Saturday night at the movies they would take their baths they would use Saturday night for the purpose for which the Lord ordained it. A voice in the wilderness.—Houston Post.

What Interested Her.
"Now, about this life insurance I contemplate taking out, premiums vary." "Premiums?" chirped his wife. "I want a plush-covered postcard about it, John."

The Best Kind.
When a man has established a reputation for honesty and integrity; when he has put forth his best endeavor to be a good citizen and to support his family in comfort, and be a good neighbor, and the community in which he lives is better for his having lived in it he represents the very best society to be found on earth.

Little to Be Thankful For.
Miss Joy required the various members of her Sunday-school class to tell her the things for which they were thankful. Mabel gave thanks for blue eyes, Dorothy for her wavy hair. Poor little Bill, treckle-faced and red of tresses, sighed when it came his turn. "Teacher, I don't know for what to be thankful. Seems to me God putty high ruin my looks."

British Lawmakers.
The British house of parliament consists of 670 members (465 for England, 30 for Wales, 72 for Scotland and 103 for Ireland), elected for seven years by secret ballot. No one under twenty-one years of age is eligible. All clergymen of the Church of England, ministers of the Church of Scotland and Roman Catholic clergymen are disqualified from sitting as members; all government contractors and all sheriffs and returning officers for the localities for which they act are disqualified both from voting and from sitting as members. Every voter must be twenty-one years of age, be the proprietor of a house or a piece of land, or pay an annual rent of \$20.

Thing of the Past.
Betty had been punished. Her aunt did not know that, and, when she came into the room and found Betty sitting disconsolately before the window, she said: "Why, look at our little Betty. She looks ready to cry. What is going to happen, I wonder?" Betty looked up and then said solemnly: "It has happened."

Good Farm Homes.
It is not necessary to go to the city to get a modern home. A ram home can be built for three or four thousand dollars that would cost nearly twice as much in the city. A lighting and heating system can be installed as cheaply in the country and kept up at a much smaller expense than similar conveniences can be kept in the city home.

"THE NAME OF FRANCE"

Dr. Henry Van Dyke, former ambassador to Holland, with his little daughter, Katrina, and pet dog.

The poem, "The Name of France," and reprinted from the Art World, was written by Mr. Van Dyke and dedicated to France. The poem follows:

THE NAME OF FRANCE.
Give us a name to fill the mind,
With the shining thoughts that lead mankind.

The glory of learning, the joy of art,
A name that tells of a splendid part
In the long, long toil and the strenuous fight.

Of the human race to win its way
From the ancient darkness into the day
Of freedom, brotherhood, equal right—
A name like a star, a name of light,
I give you France!

Give us a name to stir the blood
With a warmer glow and a swifter food
At the touch of a courage that conquers fear—
A name like the call of a trumpet, clear
And silver-sweet and iron-strong,
That brings three million men to their feet
Ready to march and steady to meet
The foe who threatens that name with wrong.

A name that rings like a battle-song,
I give you France!

Give us a name to move the heart,
With the strength that noble griefs impart—
A name that speaks of the blood out-poured
To save mankind from the sway of the sword—
A name that calls the world to share
The burden of sacrificial strife
Where the cause at stake is the world's free life.

And the rule of the people everywhere—
A name like a vow, a name like a prayer—
I give you France!

CLUB WOMEN ATTEND RECIPROCITY DAY

Tuesday was Reciprocity day of the Woman's club which was held at DeLand, the occasion being thus appropriately marked by the dedication of the new clubrooms of the DeLand Woman's club.

The towns of Volusia county were represented by delegates from the various Woman's clubs. The Palmetto club was ably represented by Mrs. W. E. Hitchcock, Mrs. G. N. Chamberlin, Mrs. J. H. Graham, Mrs. Margaret Snyder, Miss Margaret Chase, Miss Harriet Schneider, the party driving over to DeLand in Mrs. Graham's car.

Mrs. Chamberlin, representing the Palmetto club delivered a short address on the "Aims and Accomplishments of the Palmetto club." Mrs. Hitchcock, representing the Music department, spoke a few words on the scope of the work of this department, entertaining the gathering with several well executed solos.

TALLARICO TO APPEAR AT PALMETTO CLUB

Society and Palmetto club circles are agog over the coming of the eminent pianist Pasquale Tallarico, who appears in recital tomorrow afternoon under the auspices of the Music Department of the Palmetto club, this being the annual Music Day offering of the department.

Tallarico has the distinction of winning the first prize in the contest held in Los Angeles by the National Federated Music clubs, in which 35 pianists from 19 states entered, all American taught, Tallarico receiving the unanimous vote of the judges for first prize.

Thursday being the occasion of the regular club meeting, admission is only by invitation. There are many music lovers who are seeking necessary invitations from the club members. Mr. Tallarico arrives this afternoon from Jacksonville, where he gave a recital Tuesday night.

TUESDAY CARD PARTY WAS WELL ATTENDED

Springflowers with bamboo and ferns made the Palmetto clubhouse very lovely on Tuesday afternoon, the occasion of the weekly card party by the Social committee with Miss Adelaide Young as its chairman.

Thirteen tables were devoted to cards, auction and five hundred being at the fore with expert and enthusiastic players participating. Beautiful twin candles made of bay berry were the prizes offered, and superposition of the superior good fortune which follows in the wake of these demure prizes, added to the artistic beauty of them made the ladies play with greater zeal. When the scores were tallied it was found that Mrs. B. L. Dulaney, and Mrs. M. R. Rand were the winners at auction; Mrs. Zintant being successful at five hundred.

Mrs. Arthur W. Blake was hostess, assisted by Mrs. J. H. Donnelly. Refreshments were served after the card game.

Invaluable Habit of Thrift.

WILBUR BY THE SEA

WILBUR-BY-THE-SEA, Feb. 27.—That the Toronita hotel is an especially attractive place to hold a banquet was demonstrated when Miss Piper received three requests to reserve the dining room for the same evening. From now on this popular hotel will be noted for the brilliant parties held there.

Many guests from Pennsylvania are being entertained at the Toronita hotel, and among them are Mr. and Mrs. Theo. Boggs, of Beaver Falls, who are extremely popular. Mr. Boggs is a prominent dry goods merchant, and is considered a very successful business man.

The trophy awarded in the clock golf contest was won by Harold Whidden. The cup was presented to the athletic association by Mrs. N. F. Emmons, and was closely contested from the start.

Cards were very much in evidence Saturday evening, as well as other diversions. Miss Piper presented the winners with suitable prizes, and punch and cake were served. After the scores were tallied the winners were found to be Mrs. Mary Catlin, C. A. Hurd and F. L. Parker.

Bishop Hamilton, the noted divine, has selected two lots at Wilbur-by-the-Sea, and it is expected that he will build a pretty winter residence, and reside there. It is a source of great gratification to the other residents to have such desirable people locate there and the neighborly spirit to be found in this new city makes the place dear to those who reside there.

The many friends of J. W. Wilbur, who left for Boston several days ago to consult engineers and architects relative to the enlargement of his buildings at Wilbur-by-the-Sea, will be pleased to hear that his health has greatly improved. The specialist there pronounced his stomach disorder due to the over-indulgence in citrus fruit, of which Mr. Wilbur was very fond. Mr. Wilbur will return at his earliest convenience, but being one of the largest real estate dealers, operating in 42 cities, it is not known at this time whether he will return before he end of the tourist season.

FACTS ABOUT HALIFAX

By every test the

HALIFAX LANDS

have been proven to be of the

MOST FERTLE

character. Drainage has been accomplished perfectly and the question of

MARKET

for the produce is automatically solved by the fact that within a distance of thirty miles on the west shore of the Halifax River are located the towns of Ormond, Holly Hill, Daytona, Port Orange, Allandale and New Smyrna, and on the east shore are Seabreeze, Daytona Beach and Wilbur. All of these towns are connected by HARD SURFACED ROADS and offer a ready local market for all kinds of produce

Shipping Facilities

are afforded by the Halifax lands being a short distance with the Florida East Coast railway on the west, and within one mile on the east, with the East Coast canal. The F. E. C. railway connects with all continental trains at Jacksonville and freight boats passing through the canal connect at Jacksonville with all outgoing steamers to any seaport, or tranship via railway to any inland point. It will be seen at a glance that transportation facilities by rail or water are at the very doors of the Halifax company's lands.

PARTY AT CLARENDON

Marked by a simplicity that was al-
together charming the luncheon given
at the Clarendon Monday by Dr.
and Mrs. John Champlin, of Westerly,
R. I., who are wintering in Daytona.
was a memorably delightful affair.

who are guests at the Clarendon are
Mr. and Mrs. G. A. Soden.

Among the new arrivals from New
York City, who are guests at the Claren-
don are Mr. and Mrs. W. A. Walsh
and Otis H. Cutler.

The colony of enthusiastic golfers
at the Clarendon was augmented Mon-
day by the arrival of G. C. Carlisle, Jr.,
of New York City.

Prominent Canadians who were in-
coming guests at the Clarendon Mon-
day are Mr. and Mrs. George D.

The Clarendon is proving popular
with Indianapolis people this season

number of prominent visitors from
that city have been noted at the hotel.
A late arrival is Mrs. H. Munk, who is
on her way south.

Mr. and Mrs. W. C. Briggs, of De-

Phillips, of Birmingham, Ala., are
again guests of the Clarendon, having
returned Monday, after a long motor
trip to southern and west coast re-
spects. Mr. Nabb will join them to-
day. Bringing their car to Florida,
Mr. and Mrs. Nabb, accompanied by
Mrs. Phillips, have driven practically
all over the state on a series of motor
trips.

To a group of music lovers, who
enjoyed to the utmost his finished
technique and exquisite interpreta-
tions, Edward Vele played a number
of original compositions yesterday
morning in the Clarendon ball room.
Mr. Vele, who is spending the winter
with his brother-in-law and sister,
Mr. and Mrs. E. L. Potters at their
home on Seabreeze avenue, is not only
a gifted musician, but also a com-
poser of note.

Cause for Blueness of Air.

Pure air is blue, because, as Newton
tells us, the molecules of the air have
the thickness necessary to reflect blue
rays. When the sky is not perfectly
pure the atmosphere is blended with
perceptible vapors, and the diffused
light is mixed with a large proportion
of white.

Self Development.

There are so many great things to
live for that it's folly to be kept busy
with trifles. Turn your energies to-
ward self-development and the result
will be increased power. With every
increase will come enlarged vision.
That in turn will make new demands
on your ability and you will find your-
self in an ever enlarging development.
Your tastes will grow with attainment
and you will learn to measure things
by new standards. Then it is that
you are growing in measure sufficient-
ly large to help others. The better
your life is the more your influence
will be and the more it will count.

Greatest Joys Are Simple.

The joys that are bought with money
are worth nothing compared with the
joys that, though sweet and gentle
and unassuming, are yet deep, endur-
ing and quieting; the joys that en-
large the heart instead of diminishing
it, and which we too often pass by—
somewhat in the manner of those
peasants whom one sees in an ecstasy
over the fireworks at some festa, and
who pay not the smallest attention to
the splendor of a summer night.—

Neither Burns, Shelley nor Byron
lived to the age of forty. Burns and
Byron died between thirty-six and
thirty-seven, and Shelley passed out
at thirty.

FORD AND SAXON COLLIDE

TUESDAY ON OCEAN BEACH

An auto collision occurred Tuesday afternoon about 1:45 on the beach a mile north of Wilbur when the Ford owned by E. D. Gardner, of Tavares, of which Marshall Gardner was driver, collided with the Saxon of Miss Mattie Pacetti and party. Miss Pacetti's home is in Ponce Park.

The Saxon car was bound north on the beach and it is said that it was in the edge of the water when it was hit by the Ford car which was going toward Mosquito Inlet.

The Saxon was badly smashed, two wheels and the body of the car being

ruined and parts of the machine being broken by the contact. The Saxon was brought to Renner & Wagon garage this morning where it is being repaired.

When Corks Allow Leaking.

After corks have been used a while they sometimes become so compressed that the contents of the bottle leak out. This may be remedied by putting the corks in boiling water and leaving them there until the water cools. They will then be as good as new and fit just as tightly.

ELEPHANT ENJOYS TAKING SAND BATH

ALL OF JOHNNY JONES' ENTERTAINMENTS DO NOT TAKE PLACE WITHIN THE BIG TENTS ALONE.

All of Johnny Jones' entertainments do not take place within the big tents behind the handsome ornate fronts which have transformed City Island this week into a veritable World's fair. There's many an interesting incident transpiring behind the scenes all the time and people enjoying the breeze while seated in the comfortable rockers on the veranda of Casino-Burroughs have grand stand seats for much of this by-play.

The other day, the sojourners at the casino were treated to the strange sight of an elephant taking a sand bath! Ever see an elephant do this? Well, Baby Sue, with the Jones' show simply delights in this sort of diversion and on the afternoon in question, which was Monday while the shows were setting up, she indulged in it for hours. She would get her long snout full of the beach sand (she was tied just at the river bank behind the Wild Animal arena), and then would proceed to deluge her body with about two or three gallons of the sand which she could conveniently hold in her trunk. She never tired of the sport but rocked to and fro contentedly all afternoon repeating the operation at frequent intervals.

All of the animals except those of the very ferocious variety such as the lions, leopards, etc., are having their daily bath in the Hadlax and the tourists delight in seeing Brain performing his abolutions while attached to a long rope held by one of the attendants. The ponies, dogs and other domestic animals all come in for this privilege but Sir Leo and his other fierce companions must pay the penalty of their mean dispositions—remain in their cages and be content with a bucket of water thrown over them occasionally.

BENEFIT DANCE ONLY FAIRLY PATRONIZED

OTHER MEANS WILL BE USED TO RAISE FUNDS TO RETAIN OR CHESTRA THROUGHOUT THIS MONTH.

The dance held at the Casino-Burroughs on Tuesday evening for the benefit of the music fund drew a fair attendance of people. Mr. Rogers stating this morning that about \$90 had been taken in at the door. It had been hoped and expected that many would buy tickets regardless of whether they wished to attend the dance or not, but this was not true, a great per cent of those who came buying their tickets at the door.

Whether or not the music can be continued is a problem. Plans are being made now to devote March 17th to the music fund in divers ways of procuring money, the definite idea to be given out later.

Digestibility of Eggs.

Medical science says that raw eggs are more quickly digested than cooked ones. Soft-boiled, roasted and poached eggs are more easily digested than when fried or hard-boiled. The stomach will digest a raw egg in from one and a half to two hours. Soft-boiled and roasted require from two and a half to three hours, while hard-boiled or fried must be allowed from three and a half to four hours for digestion.

To Amuse a Convalescent Child.

Get one of the common toy balloons of bright color. Tie a piece of newspaper to the end of the string, tear off or add to the paper until the balloon is balanced, and give to the child to turn loose in the room. It will perform the most curious antics, constantly changing and going about the room exploring everything, due to the air currents.

CAPT. FREDERICK HINSCH

Capt. Frederick Hinsch, agent of the North German Lloyd Steamship company, who was the only person saved when the German submarine Deutschland sank the tug of the T. A. Scott Wrecking company which was accompanying the submersible on its dash to sea.

Daily Thought.

Many thought men in view of present times that to pay for old debts—Sir Philip Sidney.

Fright Not Cowardice.

There is a state of mind which is about half way between a rational fear and a cowardly fear. It is a really excusable fear. For instance, the fear of extraneous things in the dark is such. True, this old fear has been of great value in that bunch of the old and ways have been abolished. Our so powerful are partly impressions and experiences—especially of the sense. But many conditioned persons who were tortured by doubts when young became frightened at the thought of again sitting in the chair of agony. Only by a new experience can this real fright, not real cowardice, be cast out of the mind.
